We have audited the accompanying financial statements of Jackson County Utility Authority as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the Jackson County Utility Authority's basic financial statements as listed in the table of contents.

## Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

## Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the activities of Jackson County Utility Authority as of September 30, 2019, and the respective changes in financial position and cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

## **Other Matters**

#### Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, the Schedule of the Authority's Proportionate Share of the Net Pension Liability, and the Schedule of the Authority's Employer Contributions on pages 4-8 and 32-33, respectively, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

## Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Jackson County Utility Authority's basic financial statements. The schedule of expenditures of federal awards is presented for purposes of additional analysis as required by *Title 2* U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards, and is not a required part of the basic financial statements.

The schedule of expenditures of federal awards is the responsibility of management and was derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards is fairly stated in all material respects in relation to the basic financial statements as a whole.

#### Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated August 18, 2020, on our consideration of the Jackson County Utility Authority's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Jackson County Utility Authority's internal control over financial reporting and compliance.

Management's Discussion and Analysis

#### Introduction

This discussion and analysis of the Jackson County Utility Authority (Authority) financial performance provides an overall narrative review of the Authority's financial activities for the year ended September 30, 2019. The intent of this discussion and analysis is to look at the Authority's performance as a whole; readers should also review the financial statements and the notes to the financial statements to enhance their understanding of the Authority's financial performance. Information contained in this section should be considered in conjunction with that presented in the Authority's financial statements, notes to financial statements and any accompanying schedules.

#### **Financial Highlights**

- The Authority's net position decreased approximately \$(1.7) million over 2019; and is approximately \$107.2 million. Unrestricted net position increased by approximately \$0.7 million to approximately \$(10.1) million; restricted net position decreased by approximately \$(0.8) million to approximately \$1.9 million; and net position invested in capital assets net of related debt decreased approximately \$(1.6) million to \$115.4 million.
- Operating revenues were approximately \$17.3 million while operating expenses were approximately \$21.5 million, or approximately \$13.1 million excluding depreciation.
- The Authority increased noncurrent liabilities by approximately \$2.7 million to \$67.6 million and reported a net pension liability of approximately \$12.8 million.

#### **Budgetary Highlights**

Throughout the year the Authority reviews capital projects and presents budget amendments to the Board of Directors to accommodate economic conditions that adversely affect operating expenses. Generally, non-urgent capital projects can be delayed, if necessary, to prevent any changes in fee contributions from participating agencies. Depreciation expense is noted specifically at approximately \$8.4 million. The following table summarizes the final budget, excluding certain Grant and Bond activities, to actual comparative results.

	Budget	Actual	Variance
Operating revenues	\$18,620,446	\$17,299,107	\$ (1,321,339)
Operating expenditures	(11,862,788)	(13,097,974)	(1,235,186)
Grant and other revenue	1,481,268	4,051,615	2,570,347
Debt service	(4,097,227)	(4,023,051)	74,176
Depreciation	(2,188,374)	(8,417,795)	(6,229,421)
Excess (deficiency)	\$ 1,953,325	\$ (4,188,098)	\$ (6,141,423)

#### Year 2019 Budget to Actual Comparison

## **Overview of the Financial Statements**

This report includes Management's Discussion and Analysis, the Independent Auditor's report, the basic financial statements, notes to the financial statements and other information in addition to the basic statements themselves.

Basic Financial Statements - The basic financial statements are designed to provide readers with a broad overview of the Authority's finances, in a manner similar to a private-sector business. These statements are prepared using the accrual basis of accounting with accounting principles generally accepted in the United States of America (GAAP). Under this basis of accounting, revenues are recognized in the period in which they are earned and expenses are recognized in the period in which they are incurred, regardless of the timing of the related cash flows. These statements offer short and long-term information about the Authority's activities.

The Statement of Net Position presents information on all the Authority's assets and liabilities, with the difference between the two reported as Net Position. Over time, increases or decreases in Net Position may serve as a useful indicator of whether the financial position of the Authority is improving or deteriorating.

The Authority's revenues and expenses are accounted for in the Statement of Revenues, Expenses, and Changes in Net Position. This statement provides a measurement of the Authority's operation over the past year and can be used to determine whether the Authority has successfully recovered all its costs through its rates and other charges and to also analyze profitability and credit worthiness.

The Statement of Cash Flows provides relevant information about the Authority's cash receipts and disbursements, resulting from operating, non-capital financing, capital and related financing and investing activities. The changes in cash balances are an important indicator of the Authority's liquidity and financial position.

The Notes to Financial Statements provide additional information that is essential to a full understanding of the data provided in the basic financial statements. The notes to the financial statements can be found on pages 13-31 of this report.

The Required Supplementary Information section presents the Schedule of the Authority's Proportionate Share of the Net Pension Liability and the Schedule of the Authority's Contributions; and the related notes to these schedules.

The Supplementary Information section presents the Schedule of Expenditures of Federal Awards and the Notes to the Supplementary Information.

#### **Financial Summaries and Comparisons**

The following are summary presentations of the Statements of Net Position and Statements of Revenues, Expenditures and Changes in Net Position for the years ended September 30, 2019 and 2018:

## **Statements of Net Position**

	September 30,		
	2019 2018		
Current and other assets	\$ 14,997,411	\$ 16,596,373	
Capital assets, net	165,029,506	162,557,479	
Total assets	180,026,917	179,153,852	
Deferred outflows of resources	769,290	1,180,745	
Current liabilities	5,824,780	6,240,471	
Long-term liabilities	67,573,224	64,821,818	
Total liabilities	73,398,004	71,062,289	
Deferred inflows of resources	153,966	301,079	
Summary of net position			
Invested in capital assets, net of related debt	115,390,471	117,013,752	
Restricted	1,947,628	2,765,945	
Unrestricted	(10,093,862)	(10,808,468)	
Total net position	\$ 107,244,237	\$ 108,971,229	

The Authority's investment in capital assets accounted for 107.6% of total net position. It should be noted the total assets and total net position are calculated using capital asset values as depreciated and do not reflect fair market value of real property and facilities held throughout Jackson County.

## Statements of Revenues, Expenditures and Changes in Net Position

	September 30,		
	2019 2018		
Operating revenues	\$ 17,299,107	\$ 16,066,067	
Operating expenditures	(21,515,769)	(20,867,086)	
Non-operating revenues	220,600	130,319	
Non-operating expenditures	(1,807,280)	(1,353,220)	
Capital contributions and grants	3,831,015	1,052,846	
Change in net position	\$ (1,972,327)	\$ (4,971,074)	

#### **Capital Assets and Debt Administration**

Capital Assets – As of September 30, 2019, the Authority had approximately \$165 million invested in facilities, infrastructure and equipment. This amount represents a net increase of approximately \$2.5 million, or about 1.5% above last year. The following table presents a summary of the Authority's capital assets for the fiscal year.

## Capital Assets at September 30, 2019 and 2018

	September 30,		
	2019	2018	
Land and construction in progress (CIP)	\$ 24,755,266	\$ 40,725,300	
Other capital assets (net of depreciation)	140,274,240	121,832,179	
Total capital assets	\$165,029,506	\$162,557,479	
Other capital assets (net of depreciation)	140,274,240	121,832,179	

Debt Administration – As of September 30, 2019, the Authority had \$54.2 million in credit lines, notes and bonds outstanding. The following table presents a summary of the Authority's debt as of the end of the fiscal year.

## **Bonds and Notes Outstanding**

September 30,		
2019	2018	
\$ 17,403,474	\$ 14,467,650	
7,734,460	7,958,119	
695,450	-	
442,862	543,281	
27,930,000	28,785,000	
\$ 54,206,246	\$ 51,754,050	
	<b>2019</b> \$ 17,403,474 7,734,460 695,450 442,862 27,930,000	

## **Economic Factors and Next Year's Budget Rates**

The Authority will focus on the long-term goals of maximizing labor and equipment utilization and improving our customer experience. No other significant financial challenges are forecast that should significantly affect the stability of customer rates.

## **Contacting the Authority's Management**

This financial report is designed to provide the user with an executive overview of the Authority's finances and to show accountability for the money it receives. If you have any questions about this report, or need additional information, please use the contact information provided below.

Decrease in deferred inflows	(147,113)
Increase in net pension liability	596,491
Net cash provided by operating activities	\$ 5,291,873

Notes to Financial Statements

## Note 1 - Summary of Significant Accounting Policies

**Basis of presentation** – The accompanying financial statements of the Jackson County Utility Authority (hereafter called "Authority") have been prepared in conformity with accounting principles generally accepted in the United States of America (GAAP), as prescribed by the Governmental Accounting Standards Board (GASB). GASB is the accepted standard-setting body for governmental accounting and financial reporting purposes.

**Financial reporting entity** – Under the "Mississippi Gulf Coast Region Utility Act" enacted by the Mississippi Legislature, on May 15, 2006, Mississippi Gulf Coast Regional Wastewater Authority merged with Jackson County Utility Authority and now operates under said name. The legislature felt that there was a need to plan, acquire, construct, maintain, operate and coordinate water and wastewater systems in order to ensure the delivery of water and wastewater services to the citizens in Jackson County. On November 16, 1981, the Authority assumed the operations and maintenance of the wastewater treatment plants for the Cities of Pascagoula and Moss Point, Mississippi and on December 1, 1981, the plant for the City of Ocean Springs, Mississippi. During fiscal years 1986 and 1988, the Authority assumed operations and maintenance of treatment plants for the City of Gautier, Mississippi, respectively.

The significant operating revenues of the Authority are the result of subscription agreements entered into with each of the above governing bodies and utility districts and call for monthly revenue payments from each, based upon budgeted costs of operations and debt service requirements allocated to each, based upon actual flow data. In addition, the Authority is generating revenue from new services being provided as a result of newly constructed utility facilities financed through federal and state grants and loans. The reporting entity consists of and includes all funds that are covered by the oversight responsibility of the Authority. There are no funds excluded from the reporting entity which are under the control of the Authority. The reporting entity is not a component unit of another entity, nor does the reporting entity include any component units. The reporting entity is a joint venture of all the above named primary governments.

**Measurement focus, basis of accounting and financial statement presentation** – The Authority is classified as an enterprise fund for purposes of financial reporting. The Authority's financial statements are presented using the economic resources measurement focus and the accrual basis of accounting. Revenues are recognized when earned and expenditures are recognized when incurred, regardless of the timing of related cash flows.

The revenues and expenses of the Authority are classified as operating or non-operating. Operating revenues and expenses generally result from providing water and sewer collection and treatment services in connection with the Authority's primary operations. All other revenues and expenses are reported as non-operating.

**Property, plant and equipment** – Property, plant and equipment are recorded at cost and depreciation is recorded using the straight line method over the estimated useful lives of the assets (treatment system 20-25 years and other property and equipment 5-15 years). Repairs and maintenance, which do not substantially increase capacity or operational efficiency, are expensed as incurred.

**Capitalized interest** – Interest costs on outstanding debt are capitalized as incurred during the construction period of the asset.

**Net position** – Net position as presented in the statement of net position includes:

Investment in capital assets, net of related debt – The component of net position that reports the difference between capital assets less both the accumulated depreciation and the outstanding balance of debt, excluding unspent proceeds, that is directly attributable to the acquisition, construction or improvement of these capital assets.

Restricted – The component of net position that reports the funds that are restricted for contingencies and pledged as collateral for a line of credit.

Unrestricted – The difference between the assets and liabilities that is not reported in the components of net position detailed above.

**Operating and non-operating revenues and expenditures** – Operating revenues of the Authority include all revenues generated by exchange transactions entered into with the four local municipalities and any other entity (whether public or private) utilizing the Authority's wastewater treatment services, and revenues from retail water and sewer customers. Operating expenditures included all of the expenditures necessary to operate, maintain and manage the water and wastewater treatment systems as well as depreciation. Non-operating revenues include interest and investment income. Non-operating grants from the federal and state governments. Restricted resources are applied first when an expense is incurred for purposes for which both restricted and unrestricted components of net position are available.

**Capital contributions and grants** – The Authority currently has several major construction projects in process that are funded all or in part by direct and pass-through grants from the United States Department of the Interior, the United States Environmental Protection Agency and the United States Department of Transportation. These grant funds are restricted for capital acquisition or construction.

**Paid time off** – An employee with a ten-hour workday schedule earns paid time off according to the following schedule:

	Accrual Rate	Accrual rate
Continuous Service	(Monthly)	(Annually)
1 month to 5 years	15.33 hours	18 days
61 months to 15 years	18.67 hours	22 days
Over 15 years	22 hours	26 days

Continuous ServiceAccrual RateAccrual rate1 month to 5 years15.33 hours23 days61 months to 15 years18.67 hours28 daysOver 15 years22 hours33 days

All other eligible, full-time employees earn paid time off according to the following schedule:

Upon termination of employment, all ten (10) hour per day employees will first have accumulated service time converted into eight (8) hour days (for example one ten hour day will equal one and onequarter eight hour day). When an employee leaves the employment of the JCUA after ninety (90) days of continuous service, he or she will be paid for earned but unused PTO up to a maximum of 240 hours. Unused PTO in excess of 240 hours will be counted as creditable service for the purposes of the retirement system. The employee may, however, elect to have all earned but unused PTO credited to State Retirement.

Employees resigning prior to completing ninety (90) consecutive working days of service will not be paid for earned but unused PTO.

As of September 30, 2019, the Authority had accrued paid time off totaling \$448,837. This amount is included with accrued payroll liabilities.

**Budget information** – The Authority annually adopts a budget on the cash basis of accounting for its operating and debt service activities.

**Cash and investments** – The Authority considers all highly liquid investments with a maturity of three months or less when purchased to be cash equivalents. In compliance with Governmental Accounting Standards Board Statement No. 31, the Authority's investments are stated at fair value, except for highly liquid market investments with maturities of one year or less at the time of purchase, which are stated at amortized cost.

**Use of estimates** – The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenues and expenditures during the reporting period. Actual results could differ from those estimates.

**Deferred outflows/inflows of resources** – In addition to assets, the statement of financial position will sometimes report a separate section for deferred outflows of resources. This separate financial statement element, deferred outflows of resources, represents a consumption of net position that applies to future periods and so will not be recognized as an outflow of resources (expense/expenditure) until then.

In addition to liabilities, the statement of financial position will sometimes report a separate section for deferred inflows of resources. This separate financial statement element, deferred inflows of resources, represents an acquisition of net position that applies to future periods and so will not be recognized as an inflow of resources (revenue) until that time.

**Pensions** – For purposes of measuring the net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of the Public Employees' Retirement System (PERS) and additions to/deductions from PERS' fiduciary net position have been determined on the same basis as they are reported by PERS. For this purpose, the benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

In June 2012, the GASB issued GASB Statement No. 68 Accounting and Financial Reporting for *Pensions*. This statement establishes standards for measuring and recognizing liabilities, deferred outflows of resources, and deferred inflows of resources, and expense/expenditures. For defined benefit pensions, note disclosure and required supplementary information requirements about pensions also are addressed. This statement is effective for fiscal years beginning after June 15, 2014.

## Note 2 – Cash and Investments

## Cash and cash equivalents

Cash and cash equivalents consist of demand deposit checking and money market accounts with no withdrawal restrictions, and petty cash balances. As of September 30, 2019, cash bank deposits (including restricted deposits) and cash equivalents are as follows:

			Short-Term	
	Cash i	n Banks	Investments	
		Cash	Federal	
	Bank	Carrying	U.S. Cash	
	Balance	Amount	Reserves	Total
Cash and cash equivalents	\$ 4,933,026	\$ 3,358,713	\$ 4,376,908	\$ 7,735,621

The book balance of the Authority's unrestricted cash and cash equivalents totaled \$1,411,685.

The collateral for public entities' deposits in financial institutions is held in the name of the State Treasurer under a program established by the Mississippi State Legislature and is governed by Section 27-105-5 Miss. Code Ann. (1972). Under this program, the entity's funds are protected through a collateral pool administered by the State Treasurer. Financial institutions holding deposits of public funds must pledge securities as collateral against those deposits. In the event of failure of a financial institution, securities pledged by that institution would be liquidated by the State Treasurer to replace the public deposits not covered by the Federal Depository Insurance Corporation. The Authority's deposits were fully insured or collateralized as required by State statues as of September 30, 2019.

## Investments

The Authority is authorized by law to invest any moneys of the Authority, including proceeds from the sale of bonds, notwithstanding any law to the contrary, but subject to any agreements with bondholders, on such terms and in such manner as the Authority and the Trustee deems proper. The Authority's investment policy allows funds to be invested into saving accounts, certificates of deposit, money market accounts, U.S. Treasury Bills and U.S. Treasury Notes. The deposits held for satisfaction of bond covenants by the Trustee may be placed on automatic renewal.

#### Interest rate risk

Interest rate risk is the risk that, over time, the value of investments will decrease as a result of a rise in interest rates. The Authority's investment policy does not specifically restrict investment maturities other than commercial paper which is limited by state law. The Authority's policy minimizes interest rate risk by requiring that the particular fund match its investments with the anticipated cash flow requirements thus allowing investments to be held to maturity and minimizing interest rate risk.

#### Credit risk

Investments in U.S. government securities are not considered to have credit risk and, therefore, their credit quality is not disclosed. As of September 30, 2019, the Authority's investments in U.S. Treasury Bills are unrated. The Authority's policy allows only the highest or the second highest rating categories for investments other than U.S. government securities. The investments at September 30, 2019 meet the Authority's investment policy and state law restrictions.

#### Custodial credit risk

The custodial credit risk for investments is the risk that, in the event of the failure of the counterparty to a transaction, a government will not be able to recover the value of investment or collateral securities that are in the possession of an outside party. The Authority does not have a policy for custodial credit risk.

#### **Concentration of credit risk**

The Authority has no specific policy regarding concentrations of credit risk. GAAP requires disclosure when any one issuer is 5% or more of the investment portfolio. 100% of the Authority's investment portfolio is made up of U.S. Treasury Bills.

#### **Restricted assets**

At September 30, 2019, the Authority had the following restricted assets:

Description	Amount		
BancorpSouth Bank – Bond Debt Reserve	\$	1,391,547	
BancorpSouth Bank – USDA RUS Bond Reserves		541,119	
BancorpSouth Bank - Mississippi Department of Employment Security Reserve		14,962	
Trustmark Bank – 2016 Revenue Bond Reserve Cash		2,262,132	
Trustmark Bank – 2016 Revenue Bond Prefunded Payment		2,114,776	
Trustmark Bank – 2016 Revenue Bond Reserve Investments		1,995,475	
Total restricted cash equivalents and investments	\$	8,320,011	

#### Note 3 – Accounts Receivable

Accounts receivable at September 30, 2019 includes amounts due for utility services. All receivables are current and therefore due within one year. Receivables are reported net of allowance for uncollectible amounts and revenues net of uncollectibles. Allowances are reported when accounts are proven to be uncollectible. Allowances for uncollectible accounts netted with accounts receivable was \$25,705 and there were no uncollectible amounts netted with utility revenue for the year ended September 30, 2019.

#### Note 4 – Grants Receivable

Grants receivable consists of grant proceeds due from grantors for grant-related expenditures incurred but not reimbursed as of the end of the fiscal year. At September 30, 2019, the Authority had grants receivable totaling \$2,404,250.

## Note 5 – Capital Assets

Capital asset activity for the year ended September 30, 2019, was as follows:

	Beginning Balance 10/1/18	Additions	Dispositions and Transfers	Ending Balance 9/30/19
Land and construction in progress				
Land and easements	\$ 7,924,870	\$ 23,556	\$ -	\$ 7,948,426
Construction in progress	32,800,430	10,244,893	26,238,483	16,806,840
Total land and construction in progress	40,725,300	10,268,449	26,238,483	24,755,266
Other capital assets				
CDBG program constructed assets	100,765,804	-	-	100,765,804
CDBG program equipment	440,865	-	-	440,865
CIAP state wastewater project assets	692,904	-	-	692,904
CIAP county collection systems	3,590,940	-	-	3,590,940
COE Vicksburg Water Line	5,032,048	3,173,767	-	8,205,815
Vancleave laboratory facility	1,315,628	-	-	1,315,628
Pascagoula-Moss Point plant	31,993,936	5,099,621	-	37,093,557
West Jackson County plant	23,761,148	49,605	-	23,810,753
Escatawpa plant	8,705,148	15,385	-	8,720,533
Gautier plant	2,213,154	966,929	-	3,180,083
Retail systems, Ocean Beach Estates	925,573	-	-	925,573
Retail Systems, St. Andrews	-	3,491,439	-	3,491,439
Ramsey/Seaman Road water supply well	1,136,747	2,612	-	1,139,359
Big Hill Acres water and sewer systems	8,722,397	1,221,131	-	9,943,528
Connection systems	13,964,876	485,519	-	14,450,395
Pumping stations	12,912,190	2,534,504	-	15,446,694
Equipment, operation and maintenance	1,361,335	9,065	-	1,370,400
Equipment, retail operations	1,186,182	1,700	-	1,187,882
Vehicles and transportation equipment	1,707,469	101,016	-	1,808,485
Jackson Avenue administration building	1,243,422	-	-	1,243,422
Wastewater treatment systems	55,453	5,580,744	-	5,636,197
Water System Facilities	-	4,006,356	-	4,006,356
Hurley treatment & water storage	8,435	10,447	-	18,882
Surface water treatment facility	11,115	-	-	11,115
Office furniture and equipment	264,647	43,261	19,282	288,626
Software	1,159,825	66,755	-	1,226,580
Total	223,171,241	26,859,856	19,282	250,011,815
Less accumulated depreciation	101,339,062	8,417,795	19,282	109,737,575
Total other capital assets	121,832,179	18,442,061	-	140,274,240
Total capital assets, net	\$ 162,557,479	\$ 28,710,510	\$ 26,238,483	\$ 165,029,506

Depreciation expense reported for assets placed in service totaled \$8,417,795 for the year ended September 30, 2019.

## **Capital Projects**

**Mississippi Department of Transportation utility relocation project** – The Authority has been awarded a grant from the Mississippi Department of Transportation (MDOT) for the relocation and improvement of water and sewer lines along Highway 57 from Humphrey Road to Vancleave. The grant provides for \$2,000,000 for water line relocation and improvement and \$4,500,000 for sewer line relocation and improvement for a total award of \$6,500,000. In March 2018, the Authority was awarded an additional \$3,338,467 for water line relocation.

The Authority has been awarded a grant from MDOT for the adjustment of the transmission and/or distribution facilities along Highway 57 from Interstate 10 to Humphrey Road in Vancleave for 50% reimbursement totaling \$1,860,512.

The Authority has been awarded a grant from the Mississippi Department of Transportation (MDOT) for the adjustment of the transmission and/or distribution facilities located on Highway 613 at Black Creek in Jackson County. The grant provides for \$1,100,915 for the water facilities and \$274,718 for wastewater facilities.

As of September 30, 2019, the Authority had incurred 10,976,551 in costs associated with these projects.

**Wastewater force main system project** – The Authority has been awarded a loan in the total amount of \$5,611,422 from the Water Pollution Control Revolving Loan Fund through the Mississippi Department of Environmental Quality (MDEQ) for the existing 700 GPM pump station #7 with a new sewage pump station, installation of 9,000 linear feet of 12-inch force main, 3,800 linear feet of 21-inch sanitary sewer collection, 3,500 linear feet of 2-inch water main to the new pump station, and related appurtenances.

The Authority has been awarded a loan in the amount of \$3,587,790 from the Water Pollution Control Revolving Loan Fund through MDEQ for the construction of a new sewage pump station on Pine Avenue and approximately 5,700 linear feet of 12-inch force main routing to the new gravity main from Phase 1.

As of September 30, 2019, the Authority had incurred \$4,708,496 in costs associated with these projects.

**Water system facilities plan** – The Authority has been awarded a loan in the amount of \$6,501,588 from the Drinking Water Systems Improvements Revolving Loan Fund through the Mississippi State Department of Health for Phase II of the Jackson County Utility Authority Western Regional Water System Improvements. The Authority has not incurred any costs associated with this project as of September 30, 2019.

Water and Wastewater Treatment System Revenue Bonds, Series 2016 – During the year ended September 30, 2016, the Authority issued \$30,440,000 in revenue bonds for the purpose of financing the construction, enlargement, improvement, repairs or extension of its utility systems. As of September 30, 2019, a portion of the bond proceeds had been used to finance various projects totaling \$19,686,467 of which, \$18,779,979 in completed construction has been placed in service and \$906,488 in costs are construction in progress.

**Other construction projects and activity** – In addition to the major construction projects undertaken by the Authority as described above, the Authority has incurred construction and design costs associated with various other projects within the Authority's service area. Costs associated with these projects totaled \$215,305 as of September 30, 2019.

Construction in progress for the above projects totaled \$16,806,840 as of September 30, 2019.

## Note 6 – Defined Benefit Pension Plan

## **Plan description**

The Authority contributes to the Public Employees' Retirement System of Mississippi (PERS), a costsharing multiple-employer defined benefit pension plan. PERS provides retirement and disability benefits, annual cost-of-living adjustments, and death benefits to plan members and beneficiaries. Plan provisions and the Board of Trustees' authority to determine contribution rates are established by Miss. Code Ann. Section 25-11-1 et seq., (1972, as amended) and may be amended only by the Mississippi Legislature. PERS issues a publicly available financial report that can be obtained at www.pers.ms.gov.

## **Benefits** provided

Membership in PERS is a condition of employment granted upon hiring for qualifying employees and officials of the State of Mississippi, state universities, community and junior colleges, and teachers and employees of the public school districts. For those persons employed by political subdivisions and instrumentalities of the State of Mississippi, membership is contingent upon approval of the entity's employees is a condition of employment and eligibility is granted to those who qualify upon hiring. Participating members who are vested and retire at or after age 60 or those who retire regardless of age with at least 30 years of creditable service (25 years of creditable service for employees who became members of PERS before July 1, 2011) are entitled, upon application, to an annual retirement allowance payable monthly for life in an amount equal to 2.0 percent of their average compensation for each year of creditable service up to and including 30 years (25 years for those who became members of PERS before July 1, 2011), plus 2.5 percent for each additional year of creditable service with an actuarial reduction in the benefit for each year of creditable service below 30 years or the number of years in age that the member is four highest compensated years of creditable service. Benefits vest upon completion of eight years of membership service (four years of membership service for those who became members of PERS before July 1, 2007). PERS also provides certain death and disability benefits. A Cost-of-Living Adjustment (COLA) payment is made to eligible retirees and beneficiaries. The COLA is equal to 3.0 percent of the annual retirement allowance for each full fiscal year of retirement up to the year in which the retired member reaches age 60 (55 for those who became members of PERS before July 1, 2011), with 3.0 percent compounded for each fiscal year thereafter. Plan provisions are established and may be amended only by the State of Mississippi Legislature.

#### Contributions

PERS members are required to contribute 9.00% of their annual covered salary, and the Authority is required to contribute at an actuarially determined rate. The employer's rate as of September 30, 2019 was 17.40% of annual covered payroll. The employer's rate increased from 15.75% on July 1, 2019. The contribution requirements of PERS members and employers are established and may be amended only by the State of Mississippi Legislature. The Authority's contributions to PERS for the fiscal years ending September 30, 2019, 2018 and 2017 were \$764,222, \$742,305, and \$696,254, respectively, which equaled the required contributions for each year.

## Pension liabilities, pension expense, and deferred outflows of resources and deferred inflows of resources related to pensions

At September 30, 2019, the Authority reported a liability of \$12,812,410 for its proportionate share of the net pension liability. The net pension liability was measured as of June 30, 2019, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. The Authority's proportion of the net pension liability was based on a projection of the Authority's long-term share of contribution to the pension plan relative to projected contributions of all participating entities, actuarially determined. At June 30, 2019, the Authority's proportion was 0.072831% which was a decrease of 0.000613% from its proportion measured as of June 30, 2018.

For the year ended September 30, 2019, the Authority recognized pension expense of \$1,625,264. At September 30, 2019, the Authority reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	C	Deferred Dutflows Resources	Deferred Inflows of Resources	
Differences between expected and actual experience	\$	7,580	\$	13,791
Net difference between projected and actual earnings				
on pension plan investments				140,175
Changes in assumptions		125,613		-
Changes in proportion and differences between Authority				
contributions and proportionate share of contributions		443,362		
Authority contributions subsequent to the measurement date		192,735		
Totals	\$	769,290	\$	153,966

\$192,735 reported as deferred outflows of resources related to pensions resulting from Authority contributions subsequent to the measurement date will be recognized as a reduction to the net pension liability in the year ended September 30, 2020. Other amounts reported as deferred outflows of resources and deferred inflows of resources related to pensions will be recognized in pension expense as follows:

Year Ended	
September 30,	
2020	\$ 301,907
2021	(47,932)
2022	130,915
2023	 37,699
Total	\$ 422,589

#### **Actuarial assumptions**

The total pension liability in the June 30, 2019 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement:

Inflation	2.75%
Salary increases	3.00 - 18.25%, average, including inflation
Investment rate of return	7.75%, net of pension plan investment expense, including inflation

Mortality rates were based on the PubS.H-2010(B) Retiree Table with the following adjustments. For males 112 percent of male rates from ages 18 to 75 scaled down to 105 percent for ages 80 to 119. For females 85 percent of the female rates from ages 18 to 65 scaled up to 102 percent for ages 75 to 119. Mortality rates will be projected generationally using the MP-2018 projection scale to account for future improvements in life expectancy.

The actuarial assumptions used in the June 30, 2019 valuation were based on the experience investigation for the four-year period ending June 30, 2018.

The long-term expected rate of return on pension plan investments was determined using a log-normal distribution analysis in which best-estimate ranges of expected future real rates of return (expected nominal returns, net of pension plan investment expense and the assumed rate of inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation.

The target asset allocation and best estimates of arithmetic real rates of return for each major asset class as of June 30, 2019, are summarized in the following table:

		Long-term
	Target	<b>Expected Real</b>
Asset Class	Allocation	Rate of Return
Domestic equity	27.00%	4.90%
International equity	22.00%	4.75%
Global equity	12.00%	5.00%
Debt securities	20.00%	1.50%
Real estate	10.00%	4.00%
Private equity	8.00%	6.25%
Cash equivalents	1.00%	0.25%
Total	100.00%	

## **Discount rate**

The discount rate used to measure the total pension liability was 7.75%. The projection of cash flows used to determine the discount rate assumed that plan member contributions will be made at the current contribution rate and that employer contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the pension plan's fiduciary net position was projected to be available to make all projected future benefit payments of current plan. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

## Sensitivity of the Authority's proportionate share of the net pension liability to changes in the discount rate

The following presents the Authority's proportionate share of the net pension liability calculated using the discount rate of 7.75%, as well as what the Authority's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.75%) or 1-percentage-point higher (8.75%) than the current rate:

		Current	
	1% Decrease	<b>Discount Rate</b>	1% Increase
	6.75%	7.75%	8.75%
Net pension liability	\$ 16,842,357	\$ 12,812,410	\$ 9,486,051

## Pension plan fiduciary net position

Detailed information about the pension plan's fiduciary net position is available in the separately issued PERS financial report.

## Note 7 – Deferred Compensation Plan

In addition to PERS, fulltime employees may also participate in a Section 457 deferred compensation plan funded through Mississippi Deferred Compensation Plan and Trust. Contributions are made through employee salary deferral elections. For each employee that contributes up to 3% of gross annual salary, the Authority will contribute matching funds to the employee's plan. Employees are permitted to make contributions up to the applicable Internal Revenue Code limits. Participants are fully vested in all contributions and earnings thereon. Participant's investments are self-directed from a list of funds provided. With respect to the Section 457 plan, the Authority has no unfunded pension liability or fiduciary responsibility.

#### Note 8 – Lines of Credit

In November 2018, the Authority established an unsecured line of credit with Community Bank in the amount of \$1,500,000, payable monthly, interest only, at an annual interest rate of 2.3% through maturity in November 2020. During 2019, the Authority had draws totaling \$2,068,549. As of September 30, 2019, the balance on the line of credit was \$695,450.

## Note 9 – Notes Payable

On December 31, 2013, the Authority secured financing for the purchase of machinery and equipment from Trustmark Bank. The loan was in the amount of \$486,946 bearing interest at 4.32%, payable in monthly installments of \$6,742 for a period of eighty-four months, with the first payment due December 5, 2014. Current year activity under the loan may be stated as follows:

Beginning Balance	Additions	ŀ	Reductions	Ending Balance	 ue Within ne Year
\$ 238,816	\$	- \$	71,876	\$ 166,940	\$ 75,190

Principal and interest payments required under the loan are as follows:

Year Ended				
September 30,	F	Principal	Iı	nterest
2020	\$	75,190	\$	5,712
2021		78,503		2,399
2022		13,247		46
Totals	\$	166,940	\$	8,157

On August 29, 2017, the Authority secured financing for the purchase of 2 parcels of land located at Washington Avenue / Tucker Road in Jackson County from The Citizens Bank. The loan was in the amount of \$334,000 bearing interest at 4.25%, payable in monthly installments of \$3,435 through August, 2027. Current year activity under the loan may be stated as follows:

Be	ginning					Ending	Du	ue Within
B	alance	Addit	ions	Re	ductions	 Balance	0	ne Year
\$	304,465	\$	-	\$	28,543	\$ 275,922	\$	30,093

Principal and interest payments required under the loan are as follows:

Year Ended				
September 30,	]	Principal	]	nterest
2020	\$	30,093	\$	11,132
2021		31,397		9,828
2022		32,757		8,468
2023		34,177		7,048
2024		35,658		5,567
2025-2027		111,840		6,863
Totals	\$	275,922	\$	48,906

## Note 10 - State Loans in Aid of Construction

**Mississippi State Revolving Loan Fund: SRF-C280878-01**, payable in monthly installments of \$2,767, bearing interest at 1.75%, through December, 2023. As of September 30, 2019, the balance on the loan was \$104,834, with \$31,624 due in one year.

**Mississippi State Revolving Loan Fund: SRF-C280878-02**, payable in monthly installments of \$49,889, bearing interest at 2.5%, through April, 2027. As of September 30, 2019, the balance on the loan was \$4,131,609, with \$501,095 due in one year.

**Mississippi State Revolving Loan Fund: SRF-C280878-03**, the Authority was originally approved for a loan in the amount of \$1,526,351 for the construction of a wastewater compliance testing laboratory. Construction was completed during the fiscal year ended September 30, 2012, at a lower anticipated cost resulting in a reduction in the final amount of the loan. The loan was closed in January, 2013, at a total principal amount of \$1,356,544, with monthly payments of \$6,822 beginning in April, 2013. The loan bears interest at 1.75% with a term of 235 months. As of September 30, 2019, the balance on the loan was \$956,698, with \$65,649 due within one year.

**Mississippi State Revolving Loan Fund: SRF-C280878-04,** the Authority is approved for a loan in the amount of \$4,900,000 for the installation of a new wastewater force main system, including upgrades to pumps and controls in an existing pump station and installation of three additional new pump stations. The loan closed in April 2018 at a total principal amount of \$4,992,269, which includes interest accrued, with payments beginning June 2018 payable monthly in the amount of \$25,197 for a period of 234 months, bearing interest at 1.75%. As of September 30, 2019, the balance on the loan was \$4,702,452, with \$221,841 due within one year.

**Mississippi State Revolving Loan Fund: DWI-L300164-01-0,** On October 27, 2015, the Authority entered into a Drinking Water Systems Improvements Revolving Loan Fund loan agreement authorized in the amount of \$6,295,862 for the installation of 60,000 linear feet of 12" force mains with appurtenances along Old Fort Bayou and Humphrey Road, Woodlake Lane, Ocean Springs and Vancleave Road; and interconnection with the existing water mains on Highway 57 and Highway 90. The loan closed in January 2019 at a total principal amount of \$4,045,255, which includes interest accrued, with payments beginning February 2019 payable monthly in the amount of \$20,723 for a period of 237 months, bearing interest at 1.95%. At September 30, 2019, the balance of the loan was \$3,931,412, with \$173,561 due within one year.

**Mississippi State Revolving Loan Fund: SRF-C280878-06,** the Authority is approved for a loan in amount of \$4,076,634 for the installation of a new wastewater force main system, including upgrades to pumps and controls in an existing pump station. In October 2018, the Authority was awarded an additional \$1,534,788 resulting in a total award of \$5,611,422. As of September 30, 2019, \$3,287,353 had been drawn on the loan. The loan bears interest at 1.75% and is to be repaid over a period of 237 months at \$28,425 monthly beginning October 2020.

**Mississippi State Revolving Loan Fund: SRF-C280878-07,** the Authority is approved for a loan in amount of \$3,587,790 for the construction of a new sewage pump station on Pine Avenue and approximately 5,700 linear feet of 12-inch force main routing to the new gravity main from Phase 1. As of September 30, 2019, \$289,116 had been drawn on the loan. The loan bears interest at 1.75% and is to be repaid over a period of 237 months at \$17,916 monthly beginning February 2021.

Changes in state loans in aid of construction for the year ended September 30, 2019, are summarized as follows:

Beginning			Ending	Due Within
Balance	Additions	Reductions	Balance	One Year
\$14,467,650	\$ 3,851,986	\$ 916,162	\$17,403,474	\$ 993,771

Year Ended		
September 30,	Principal	Interest
2020	\$ 993,771	\$ 271,010
2021	1,358,796	409,238
2022	1,440,535	380,330
2023	1,321,544	303,251
2024	1,306,226	266,444
2025-2029	5,468,492	948,074
2030-2034	3,646,353	459,408
2035-2038	1,867,757	63,705
Totals	\$17,403,474	\$ 3,101,460

Principal and interest payments required under the loans are as follows:

## Note 11 – USDA Revenue Bonds

**USDA Revenue Bond 28-030-640652582-001:** On May 12, 2011, the Authority was approved for a USDA Rural Development revenue bond loan issued in the amount of \$4,996,050 to finance the engineering and construction costs of connections to the Big Hill Acres water and sewer system. During the year ended September 30, 2016, an interim financing arrangement with BancorpSouth in the amount of \$3,662,709 was paid off with proceeds of the loan and the Authority received additional proceeds totaling \$529,884 during the year to fund costs of construction, for a total outstanding balance of \$4,192,593. At September 30, 2019, the balance of the loan totaled \$4,444,515. The loan bears interest at 3.25% and is to be repaid over a period of thirty-five (35) years; the first two years will consist of interest only payments in the amount of \$162,372, payable October 8, 2016 and October 8, 2017. Payments for the remaining thirty-three (33) years, payable monthly in three hundred ninety-six (396) installments of \$20,755.

**USDA Revenue Bond 28-030-640652582-002:** The Authority received financing from USDA for the construction of an elevated storage tank and water well to supply the southern waterline extension. The loan is approved in the amount of \$2,881,029. At September 30, 2019, the balance of the loan totaled \$2,396,966. The loan bears interest at 3.625%, payable in monthly installments of \$12,218.

**USDA Revenue Bond 28-030-640652582-003:** The Authority received financing from USDA for the completion of construction of the elevated storage tank and water well to supply the southern waterline extension. The loan was approved in the amount of \$954,259. At September 30, 2019, the balance of the loan totaled \$892,979. The loan bears interest at 3.625%, payable in monthly installments of \$4,046.

Changes in USDA revenue bond loans for the year ended September 30, 2019, are summarized as follows:

Beginning			Ending	Due Within
Balance	Additions	Reductions	Balance	One Year
\$ 7,958,119	\$ -	\$ 223,659	\$ 7,734,460	\$ 183,354

Principal and interest payments required under the loans are as follows:

Year Ended		
<u>September 30,</u>	Principal	Interest
2020	\$ 183,354	\$ 260,868
2021	189,702	254,520
2022	196,269	247,953
2023	203,065	241,157
2024	210,097	234,125
2025-2029	1,164,813	1,056,297
2030-2034	1,381,092	840,017
2035-2039	1,637,670	583,440
2040-2044	1,914,347	279,085
2045-2049	636,876	36,509
2050	17,175	138
Totals	\$ 7,734,460	\$ 4,034,109

#### Note 12 – Water and Wastewater Treatment System Revenue Bond, Series 2016

On January 27, 2016, the Authority issued the Jackson County Utility Authority Water and Wastewater Treatment System Revenue Bond, Series 2016; par value \$30,440,000 with an original issue premium of \$3,486,203, and net proceeds of \$33,363,063 after the underwriters discount of \$563,140. The bonds were issued for the purpose of financing the construction, enlargement, improvement, repair and/or extension of the Authority's water and wastewater systems, funding a debt service reserve fund for the bond issue, refunding a line of credit, funding capitalized interest on the bond issue through September 1, 2016; and paying the cost of issuance for the bond issue. The bonds bear interest at rates between 2% and 5%; first interest payment date was September 1, 2016; first principal payment date was September 1, 2017; and final maturity date is September 1, 2040. The original issue premium is amortized over the life of bond resulting in a decrease in interest expense.

Changes in Water and Wastewater Treatment System Revenue Bond, Series 2016 the year ended September 30, 2019, are summarized as follows:

	Beginning Balance	Addi	tions	Re	eductions	Ending Balance	 ıe Within ne Year
Revenue Bond,							
Series 2016	\$28,785,000	\$	-	\$	855,000	\$27,930,000	\$ 880,000
Issuance Premium	2,927,678		-		210,704	2,716,974	-
Net Revenue Bond,							
Series 2016	\$31,712,678	\$	_	\$	1,065,704	\$30,646,974	\$ 880,000

Principal and interest payments required under the bond are as follows:

Year Ended		
September 30,	Principal	Interest
2020	\$ 880,000	\$ 1,208,225
2021	905,000	1,181,825
2022	935,000	1,154,675
2023	950,000	1,135,975
2024	970,000	1,116,975
2025-2029	5,575,000	4,860,375
2030-2034	7,035,000	3,404,875
2035-2039	8,690,000	1,748,038
2040	1,990,000	99,500
Totals	\$ 27,930,000	\$ 15,910,463

#### Note 13 – Interest Expense and Capitalized Interest

As of September 30, 2019, the following schedule sets forth the components of interest expense:

Total interest costs incurred	\$ 1,801,695
Capitalized interest	-
Total	\$ 1,801,695

#### **Note 14 – Sixteenth Section Leases**

The Authority leases portions of sixteenth section land from the Jackson County School District for use as utility line easements. The leases provide for annual lease payments for a term of forty years. The annual lease amount for the first ten-year period of each lease is based on a 5% appraised fee simple value of the land. Rent increases each ten-year anniversary date by 10% above that charged during the immediately preceding ten-year period for the term of the lease. The Authority has entered into two leases with a beginning date of June 15, 2009, which were prepaid as part of the CDBG grant

program; five leases with a beginning date of July 22, 2014, with a combined annual rental for the initial ten-year period of \$2,610; and two leases with a beginning date of October 21, 2014, with a combined annual rental of \$1,265. Future minimum payments under these leases may be stated as follows:

Year Ended	Future Minimum	
September 30,	Rentals	
2020	\$ 3,875	
2021	3,875	
2022	3,875	
2023	3,875	
2024	4,136	
2025-2029	20,680	
2030-2034	20,967	
2035-2039	22,115	
2040-2044	22,430	
2045-2049	23,690	
2050-2054	20,217	
Totals	\$ 149,735	

Rent expenditures were \$3,875 for the year ended September 30, 2019

## Note 15 – Commitments and Contingencies

Self-Insured Worker's Compensation – The Authority participates in a self-insured worker's compensation pool (Mississippi Public Entity's Worker's Compensation Trust) approved by the Mississippi Worker's Compensation Commission. Participants are jointly and severally liable only for liabilities incurred under the provisions of the Mississippi Worker's Compensation Act. Management is of the opinion that the possibility of liability resulting from the indemnity is remote.

In June 2018, the Authority and the United States Department of the Army signed an agreement for design assistance for the Jackson County Water Reclamation Project (Project). The agreement provides for cost-sharing and financing of Project. The Project is design of a system the will reclaim treated wastewater effluent and utilize it to supplement water requirements for the Jackson County Industrial Complex. The total design costs are projected to \$4,000,000.00. This cost-sharing agreement commits the Authority to 25% of the total funding. Congress of the United States has made available \$3,000,000.00 for this purpose.

The Authority is involved in various legal matters arising during the normal course of business activities. Management, after consulting legal counsel, is of the opinion that the ultimate resolution of these matters will not have a material effect on the financial condition of the Authority.

In July 2019, the Authority and Jackson County Port Authority entered into a memorandum agreement for purposes of studying whether the transfer of the Jackson County Port Authority's Industrial Water System to the Authority is feasible and in the best interest of both parties, Jackson County, Mississippi and any present customer to the Jackson County Port Authority Industrial Water System. If this materializes, the operation will be absorbed as a new enterprise.

## Note 16 – Concentration of Revenue

The Authority currently receives the majority of its operating revenue from four local municipalities and one local utility district. Revenues from these entities constituted 77.91% of total operating revenue recognized during the year ended September 30, 2019.

## Note 17 – Prior Period Adjustment

The beginning net position has been restated to record a prior period adjustment to correct accounts receivable. A reconciliation of the prior period ending net position to the current year beginning net position is as follows:

Beginning net position	\$ 108,971,229
Prior period adjustment	245,335
Beginning net position, as restated	\$ 109,216,564

## Note 18 – Subsequent Events

Events that occur after the statement of financial position date, but before the financial statements are available to be issued must be evaluated for recognition or disclosure. The effects of subsequent events that provide evidence about conditions that existed at the statement of financial position date are recognized in the accompanying financial statements. Subsequent events which provide evidence about conditions that existed after the statement of financial position date require disclosure in the accompanying notes. Management of Jackson County Utility Authority evaluated the activity of the Authority through August 18, 2020, (the date the financial statements were issued), and identified the following subsequent events:

In October 2019, the Authority entered into a loan agreement, Mississippi State Revolving Loan Fund: SRF-C280878-08, for the amount of \$5,613,000 to be used for the relocation of the existing Pump Station No. 6.

In December 2019, the Authority entered into a service agreement with a contractor for the Helena Park emergency water well installation totaling \$362,000.

In February 2020, the Authority secured financing for the purchase of a new operations and maintenance facility located on Highway 63 in Moss Point from Community Bank. The loan was for \$438,000 bearing interest at 3.06% with the balance due in one year.

In March 2020, the Authority entered into a contract with a contractor for the Jordan Road Regional Pump Station Relocation Project Phase II totaling \$2,133,849.

## Changes of assumptions:

2019

- The expectation of retired life mortality was changed to the PubS.H-2010(B) Retiree Table with the following adjustments:
  - For males, 112% of male rates from ages 18 to 75 scaled down to 105% for ages 80 to 119.
  - For females, 85% of the female rates from ages 18 to 65 scaled up to 102% for ages 75 to 119.
  - Projection scale MP-2018 will be used to project future improvements in life expectancy generationally.
- The expectation of disabled mortality was changed to PubT.H-2010 Disabled Retiree Table for disabled retirees with the following adjustments:
  - For males, 137% of male rates at all ages.
  - For females, 115% of female rates at all ages.
  - Projection scale MP-2018 will be used to project future improvements in life expectancy generationally.
- The price inflation assumption was reduced from 3.00% to 2.75%.
- The wage inflation assumption was reduced from 3.25% to 3.00%.
- Withdrawal rates, pre-retirement mortality rates, and service retirement rates were also adjusted to more closely reflect actual experience.
- The percentage of active member disabilities assumed to be in the line of duty was increased from 7% to 9%.

See accompanying notes to schedule of expenditures of federal awards.

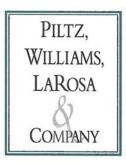

## Note 1 - Basis of Presentation and Summary of Significant Accounting Policies

The accompanying Schedule of Expenditures of Federal Awards includes the federal grant and loan activity of the Authority and is presented on the accrual basis of accounting, the same basis of accounting and the same significant accounting policies as applicable, as those used in the preparation of the Authority's financial statements. The information in this schedule is presented in accordance with the requirements of *Title 2 U.S. Code of Federal Regulations Part 200, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Such expenditures are recognized following, as applicable, either the cost principles in OMB Circular A-87, Cost Principles for State, Local and Indian Tribal Governments, or the cost principles contained in *Title 2 U.S. Code of Federal Awards*, wherein certain types of expenditures are not allowable or are limited as to reimbursement. Because the schedule presents only a selected portion of the operations of the Authority, it is not intended to and does not present the financial position, changes in net position, or cash flows of the Authority.

The Authority did not have any non-cash awards or subrecipients during the fiscal year.

The Authority did not elect to use the 10% de minimis indirect cost rate.

CERTIFIED PUBLIC ACCOUNTANTS A Professional Association

Independent Auditors' Report on Internal Control
over Financial Reporting and On Compliance and Other
Matters Based on an Audit of Financial Statements
Performed in Accordance with Government Auditing Standards

Board of Directors Jackson County Utility Authority Pascagoula, Mississippi

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of Jackson County Utility Authority as of and for the year ended September 30, 2019, and the related notes to the financial statements, which collectively comprise the Jackson County Utility Authority's basic financial statements, and have issued our report thereon dated August 18, 2020.

# **Internal Control over Financial Reporting**

In planning and performing our audit of the financial statements, we considered Jackson County Utility Authority's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of Jackson County Utility Authority's internal control. Accordingly, we do not express an opinion on the effectiveness of Jackson County Utility Authority's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs as item 2019-001 that we consider to be a material weakness.

#### **Compliance and Other Matters**

As part of obtaining reasonable assurance about whether Jackson County Utility Authority's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

### Jackson County Utility Authority's Response to Findings

Jackson County Utility Authority's response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Jackson County Utility Authority's response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it.

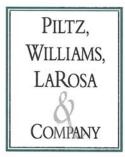

#### **Purpose of this Report**

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

CERTIFIED PUBLIC ACCOUNTANTS A Professional Association

Independent Auditors' Report on Compliance for Each Major Program and on Internal Control over Compliance Required by the Uniform Guidance

Board of Directors Jackson County Utility Authority Pascagoula, Mississippi

## **Report on Compliance for Each Major Federal Program**

We have audited Jackson County Utility Authority's compliance with the types of compliance requirements described in the *OMB Compliance Supplement* that could have a direct and material effect on each of Jackson County Utility Authority's major federal programs for the year ended September 30, 2019. Jackson County Utility Authority's major federal programs are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

# Management's Responsibility

Management is responsible for compliance with federal statutes, regulations, and the terms and conditions of its federal awards applicable to its federal programs.

## Auditors' Responsibility

Our responsibility is to express an opinion on compliance for each of Jackson County Utility Authority's major federal programs based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; and the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance). Those standards and the Uniform Guidance require that we plan and perform the audit to obtain reasonable assurance about whether noncompliance with the types of compliance requirements referred to above that could have a direct and material effect on a major federal program occurred. An audit includes examining, on a test basis, evidence about Jackson County Utility Authority's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major federal program. However, our audit does not provide a legal determination of Jackson County Utility Authority's compliance.

## **Opinion on Each Major Federal Program**

In our opinion, Jackson County Utility Authority complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major federal programs for the year ended September 30, 2019.

## **Other Matters**

The results of our auditing procedures disclosed instances of noncompliance which are required to be reported in accordance with the Uniform Guidance and which is described in the accompanying schedule of findings and questioned costs as item 2019-002. Our opinion on each major federal program is not modified with respect to these matters.

Jackson County Utility Authority's response to the noncompliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Jackson County Utility Authority's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

## Report on Internal Control over Compliance

Management of Jackson County Utility Authority is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered Jackson County Utility Authority's internal control over compliance with the types of requirements that could have a direct and material effect on each major federal program to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major federal program and to test and report on internal control over compliance in accordance with the Uniform Guidance, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of Jackson County Utility Authority's internal control over compliance.

A *deficiency in internal control over compliance* exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, noncompliance with a type of compliance requirement of a federal program on a timely basis. A *material weakness in internal control over compliance* is a deficiency, or combination of deficiencies, in internal control over compliance such that there is a reasonable possibility that material noncompliance with a type of compliance requirement of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency in *internal control over compliance* is a deficiency of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency of a federal program will not be prevented, or detected and corrected, on a timely basis. A *significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that have not been identified. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, we did identity certain deficiencies in internal control over compliance, described in the accompanying schedule of findings and questioned costs as items 2019-002, that we consider to be significant deficiencies.

Jackson County Utility Authority's response to the internal control over compliance findings identified in our audit is described in the accompanying schedule of findings and questioned costs. Jackson County Utility Authority's response was not subjected to the auditing procedures applied in the audit of compliance and, accordingly, we express no opinion on the response.

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance. Accordingly, this report is not suitable for any other purpose.

Certified Public Accountants

Biloxi, Mississippi August 18, 2020 Schedule of Findings and Questioned Costs

## Section 1 – Summary of Auditors' Results

#### **Financial Statements Section**

- An unmodified opinion was issued on the financial statements.
- The audit identified material weaknesses or reportable conditions over financial reporting.
- The audit did not disclose any noncompliance which is material to the financial statements.

### **Federal Awards Section**

- The audit did disclose significant deficiencies in internal control over major programs.
- An unmodified opinion was issued on compliance for major programs.
- Audit findings that are required to be reported in accordance with 2 CFR 200.516(a) are reported in the Schedule.
- The major programs were:

Capitalization Grants for Clean Water State Revolving Funds CFDA 66.458

- The dollar threshold used to distinguish between Type A and Type B programs was \$750,000.
- The auditee did not qualify as a low-risk auditee.

### Section 2 – Findings Relating to the Financial Statements

#### Finding 2019-001 Material Weakness

*Condition and Criteria:* The Authority did not reconcile the general ledger to the subsidiary ledgers and supporting schedules, including fixed assets, investments, debt, and net assets.

*Effect:* The financial statements were materially misstated at the beginning of the audit.

Cause: Management did not follow the internal controls over financial reporting that has been in place.

*Recommendation:* Management should review all subsidiary ledgers and supporting schedules to the general ledger monthly and at the year-end prior to the audit commencing.

*Response:* The Authority will follow the recommendations of the auditors by reconciling and reviewing all subsidiary ledgers and supporting schedules to the general ledger monthly and at the year-end prior to the audit commencing.

## Section 3 – Findings and Questioned Costs for Federal Awards

## Finding 2019-002

### Condition and Criteria:

Audit reports for September 30, 2018 were not prepared and filed timely with the Federal Audit Clearinghouse (FAC). Uniform Guidance requires the audit reports to be filed with FAC within nine months after the end of the audit period (or by June 30).

## Effect:

The Authority risks losing current federal award funding and preventing eligibility for future awards.

## Cause:

The Authority did not submit the audit reports to the FAC within nine months.

## Recommendation:

The Authority should improve its financial reporting process so that it can submit its Single Audit Reporting Package to the FAC not later than nine months after fiscal year-end (June 30).

## Response:

The Authority will improve its financial reporting process so it can submit its Single Audit Reporting Package to the Federal Audit Clearinghouse not later than nine months after fiscal year-end.
